Introducing  
**ROOF  
SEAMING  
PROFILE**

Curvilinear style with our latest Roofing Profile LCP LYCORSEAM<sup>®</sup>

## Metal Roof & Wall Cladding System

Introducing our new LCP LYCORSEAM<sup>®</sup> Profile

1

A mechanical seamed profile with concealed clip fixing allowing free movement under thermal expansion

Continuous roof length with containerised on-site roll-forming capability ensuring sheet integrity and inherent weather-tightness

2

3

Available in straight, tapered, curved and wavefrom roof shapes giving the designer an aesthetic yet economical roofing system

Our premium standing seam profile is produced in Galvalume Steel, Color Coated Galvalume Steel and Aluminium

4

### VARIOUS PROFILE OPTIONS

**ON-SITE  
ROLL-FORMING**

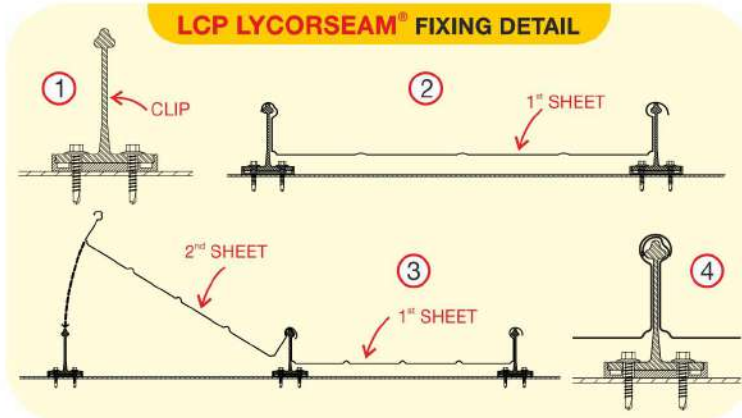

# LCP LYCORSEAM®

## FEATURE

**LCP LYCORSEAM®** standing seam roof system emanates modernity and versatility in architectural appeal, yet highly functional. Its concealed clips are specially designed to minimise heat conductivity whilst maximising sliding efficiency. **LCP LYCORSEAM®** is an ideal choice for aesthetically pleasing standing seam roof system.

## EXCELLENT PROPERTIES

- ◆ **LCP LYCORSEAM®** is an exceptional waterproofing roof system due to its high ribs – minimum pitch of 2° is recommended, subject to support spacing and structural tolerance with purlin and roof plane correctly aligned.
- ◆ No exposed fixing on roof, thus eliminates risk of leakage.
- ◆ Purpose-built liner to ensure integrity of system
- ◆ Long roof run capability due to specially designed concealed clips.
- ◆ **LCP LYCORSEAM®** specially designed to minimise heat transfer.

## CHOICE OF MATERIAL

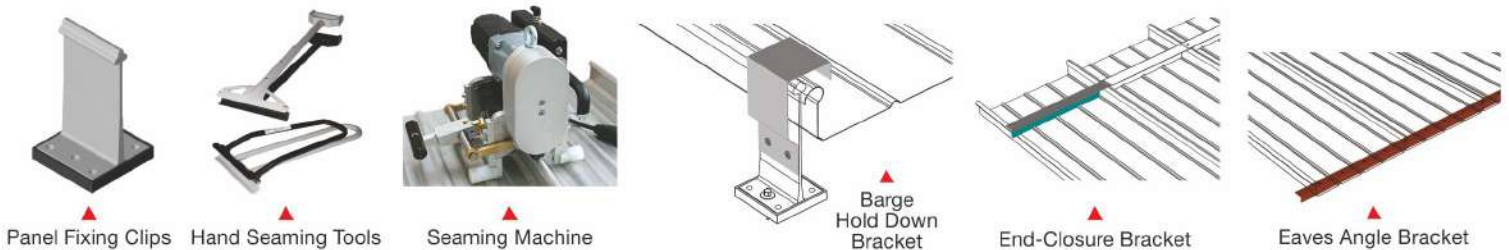

**STEEL:** The strength and formability of steel makes it an ideal material for roof and wall panels. **LCP LYCORSEAM®** is a cold roll formed roof and wall cladding manufactured from high strength steel of G300 base material (300MPa minimum yield stress), with Galvalume steel (zinc & Aluminium alloy) coating and Color coated Galvalume steel.

**ALUMINIUM:** Available in mill finish or pre-painted, aluminium provides another choice of material for **LCP LYCORSEAM®** in demanding environmental situations as well as fulfilling your challenging roof designs.

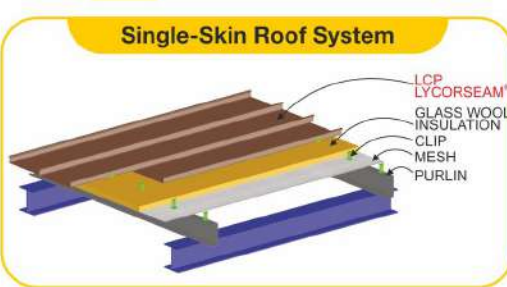

**OTHER MATERIALS:** **LCP LYCORSEAM®** is also available in other non-ferrous materials. e.g. titanium-zinc, copper, etc. For further information, please contact LCP Building Products Pvt. Ltd.

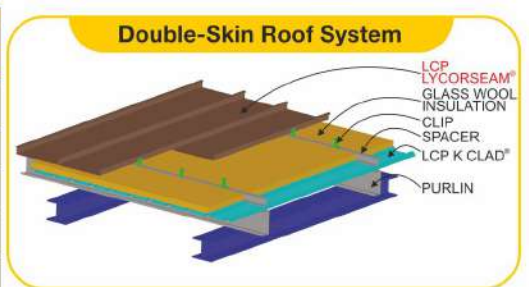

## ACCESSORIES & CLIPS

## MATERIAL & LAYING

	GALVALUME STEEL	PRE-PAINTED GALVALUME STEEL
Base Metal Thickness (BMT)	0.55mm	0.55mm
Total Coated Thickness (TCT)	0.60mm	0.60mm
Metallic Coating (Al-Zn)	150 g/m <sup>2</sup>	150 g/m <sup>2</sup>
Grade	300 MPa	300 MPa
Mass	6.29 Kg/m <sup>2</sup>	6.38 Kg/m <sup>2</sup>
